GSA MEMBERS FOR ... **SECURALLIANCE** . France

Just as Global Securalliance is an international network of security organisations, we are a network of trusted partners providing innovative security solutions throughout France. Consisting of four certified and highly experienced companies, collectively we employ over two-thousand five-hundred people; have a combined turnover of eighty-seven million euros and an enviable annual growth of fifteen percent. Intended for businesses large and small, we provide a full range of certified, technical and value added services protecting both people and property.

Since the inception of our network, Securalliance has delivered strength, stability, proximity, innovation and reliability. Our philosophy has always centred on delivering an exceptional customer experience through exceptional service. We offer all the benefits of scale and diversity of resources you'd expect of a national group whilst still retaining the specialist local expertise and experience that comes from being long-established regional organisations.

Our clients typically require improved security at their head office, production facilities or industrial complex. To address such requirements, we provide a range of enhanced human security and safety services such as 24/7 mobile guarding, alarm response and proactive site access control. Each security solution will be tailor-made to meet the specific needs of the individual client.

The French Securalliance network is comprised of the following companies: BSL SL SÉCURITÉ (1990) led by Patrick Senior, DPSA ILE-DE-FRANCE (1980) led by Geoffroy Castelnau, SGP GROUP (2005) directed by Florian Pette, ATS & FMS SAFETY (1998) directed by Hugues Pellegrini. To learn more about us and our range of services visit www.securalliance.fr
