GSA MEMBERS FOR ... **SYNERGY** . Ireland

Founded in 2008, Synergy has since established itself as one of the leading national providers of managed security and related services across Ireland. Our bespoke service delivery solutions, our pool of talented and connected security professionals - linked with flexible modern working practices, have seen us develop strong long-term relationships with a prestigious and enviable portfolio of clients. Synergy Security Solutions was formed by the merging of Express Security, Cork and Rapier Security, Dublin. We are now the largest indigenous security company in the country. The merger has put us in the position of being the market leader in the provision of security services nationwide. Our regional offices are strategically located to provide maximum benefit to our clients.

We are in a position to attend to emergency situations in the quickest possible time because of our 24/7 central communications centre and our fleet of the latest motor vehicles.

Synergy offers its client's real expertise at all levels. We have a passion for the work we do and we provide a tailored approach - which delivers exceptional value for money. It is this commitment which has earned Synergy widespread industry recognition and a solid reputation for innovation and quality. Synergy is strong driver for positive change within the security industry, a top-scoring PSA Approved Contractor and winner of multiple industry awards for excellence.
